

1. Students can explain what they are learning and why.

Students share their knowledge

Students are engaged and participate with confidence

2. Teachers identify the needs of every student.

Students use work samples to select quality writing

# Keeping it REEL

## Richardson Engaging Effective Learners

At Richardson Primary School we have a whole school approach to teaching and learning. We use these five principles to engage all students in every classroom.

Individual feedback is focussed on the work

5. Students are responsible for their learning.

**What does this mean for your child?**

It means our teachers know your child really well and know exactly what he/she needs to move forward with their learning.

3. Feedback is given to move learning forward.

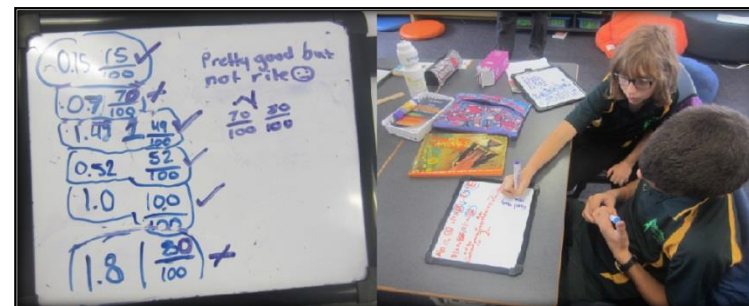

Students seek peer support before the help of a teacher.

"See 3 students before me"

Student self-assessment

4. Students work cooperatively to support each other.

Students support each other's learning and provide feedback
